Concession Nation, Inc.

Re: Trailer Orders

Dear Keith,

I first spoke with Concession Nation at about 8:15 am back in August 2009, and informed Mr. Keith Brown that I had an important project that was way behind schedule and it needed to be completed soon."How soon?", Keith asked, "12 days" I replied..."that's impossible, but we can make it happen", was the response I got. It was at that moment, I knew I had found the right company...from the intricate planning of the kitchen, like all Quiznos' stores, down to the final 2 days of work in which we all worked 18 hour days and that was on top of me (making changes several times, I may add). The trailer was not only finished on time but was delivered at our headquarters in Colorado 2 days later.

We have since ordered more trailers from Concession Nation, as well as awarded an exclusive contract to build all trailers for Quiznos from them. Alex, Keith and the whole team have pulled through for me over and over again.

I would highly recommend this company to anyone seeking to build a food trailer.

Thanks again guys!
